

ERIKA

Dynamic Geometrics

ERIKA Dynamic Geometrics

Offering show-stopping elegance within a dynamic geometric shape and profile, ERIKA creates a sensational lasting impression in any interior application.

ERIKA's lean and modern design can be specified in either square or rectangular shapes constructed of 1.25", 2.25" or 3.25" mitered extruded aluminum in either a direct or direct/indirect option. A round profile is also available in a 1.25". Extruded acrylic lenses deliver Direct (Flush lens), Reveal (¾" drop lens) or Diffused (Tri-side lens) illumination, while integral dimming and battery pack options are also available for added lighting versatility.

Satin Clear anodized, Matte White or Flat Black powder coat are standard finishes. Custom finish options are also available.

Features and Benefits:

- User specified LED lumen output and wattages available
- Horizontally cable-suspended pendant delivers direct or direct/indirect illumination dual distribution
- Square or variable Rectangular shapes are constructed of mitered extruded aluminum (consult factory for rectangle dimensions)
- 1.25" round profile available (125R)
- Flush Mount, Reveal or Tri-side extruded acrylic lens styles
- Integral dimming in 225 and 325 and emergency battery pack compatible
- Satin Clear anodized, Matte White or Flat Black powder coat paint finishes are standard
- Custom colors and finishes available
- UL and c-UL listed for dry or damp locations
