JAKE

JAKE provides elegant illumination in a sleek recessed linear luminaire engineered to blend seamlessly into the most refined architectural interiors.

Constructed of heavy gauge extruded aluminum and available in 1.65", 2.25" or 3.25" aperture models, JAKE can be hard ceiling or drywall mounted with either a 3/4" trim (TR), or trim-less (TL) mud-over flange. JAKE can also be installed in the most popular suspended T-grid ceiling systems.

JAKE is also available in a LED Wall Wash and Wall Graze version. Continuous run lengths and nominal lengths are available, or create endless transverse runs from wall to ceiling, wall to wall, or on a single wall using the 90° mitered angle option.

Features and Benefits:

- Trim (TR), Trimless (TL) or T-Grid style recessed mounting
- Easy lens removal and replacement provides effortless maintenance
- Extruded acrylic lenses and semi-specular louver options
- Lamping options:
T5/T5HO, T8 standard fluorescent
T5HE or T5HO seamless fluorescent
LED Light engine systems
- Integral electronic ballast/driver is standard. Dimming and emergency battery pack compatible
- LED Wall Wash and Wall Graze available
- Can be installed as continuous-run
- 90° mitered angle options available
- U.L. and c-U.L. listed for dry and damp locations
