

JAKE

Recessed Linear Luminaire

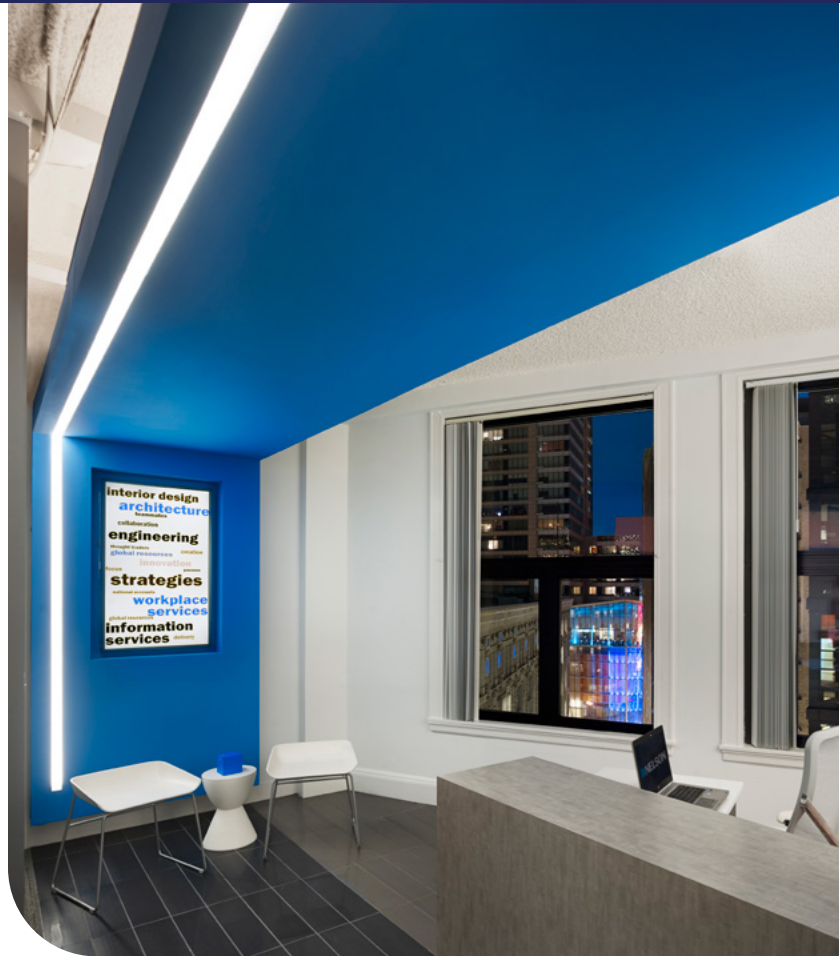

JAKE Recessed Linear Luminaire

JAKE provides elegant illumination in a sleek recessed linear luminaire engineered to blend seamlessly into the most refined architectural interiors.

Constructed of heavy gauge extruded aluminum, available in 1.65", 2.25", 3.25", or 5.00" aperture models. JAKE can be hard ceiling or drywall mounted with either a 3/4" trim (TR), or trim-less (TL) mud-over flange. JAKE can also be installed in popular suspended T-grid ceiling systems.

JAKE is also available in a LED Perimeter, Wall Wash and Wall Graze versions. 1" Regress lens option is available or a 3" perimeter regress.

Nominal lengths 2' - 8', continuous run available. Create endless transverse runs from wall to ceiling, recessed to suspended, wall to wall, or on a single wall using the 90° mitered angle option.

Features and Benefits:

- Trim (TR), Trimless (TL) or T-Grid style recessed mounting
- Easy lens removal and replacement provides effortless maintenance
- Extruded acrylic lenses and semi-specular louver options. Regress lens options available on standard and perimeter mounting
- User Specified LED Lumen and wattage output available
- Integral electronic power supply is standard. Dimming and emergency battery pack compatible
- LED Wall Wash and Wall Graze available
- Can be installed as continuous run
- 90° mitered and custom angle options available
- U.L. and c-U.L. listed for dry and damp locations
