NEW PRODUCT INTRODUCTION: CHARLOTTE FROM BIRCHWOOD LIGHTING

New Product Introduction: CHARLOTTE's sweeping curved LED features multiple color temperatures and light output options within a 3.25" aperture constructed of heavy duty extruded aluminum housing. Cable suspended or surface mount, available in 8' nominal lengths as well as continuous runs.

Design: Birchwood Lighting In-House Product Design Team

Manufacturer: Birchwood Lighting

Product Applications: CHARLOTTE is a curved linear luminaire suitable for cable suspended or surface mounted interior installations. Light is delivered directly via flush mount acrylic lens and is ideal for interior commercial, retail, hospitality or institutional applications.

Product Description: CHARLOTTE is available in two configurations, direct distribution and a direct/indirect distribution. Unleash your creativity using broad curves and shapes with the continuous run option or display it as a stand alone luminaire alternating curved sides for dramatic architectural patterns and effects.

Construction and Finishes: CHARLOTTE is constructed of heavy-duty extruded aluminum, extruded acrylic lenses and precision machined ¼ thick aluminum end-caps. Satin clear anodized aluminum, or standard custom color powder coat finishes are available.

Ordering Information: Information and pricing for CHARLOTTE luminaires is available from Birchwood Lighting at 1302 E. Hunter Avenue, Santa Ana, CA 92705.
