Press Release

For use upon receipt

USER DEFINED CUSTOM LUMEN OUTPUT AND LUMINAIRE WATTAGE NOW AVAILABLE FROM BIRCHWOOD LIGHTING

New Product Capability: Birchwood Lighting now offers a Custom Lumen Output (CLO) option for all of its LED luminaires bringing a vast range of performance possibilities to the lighting community that addresses both design and lighting code challenges.

Design: Birchwood Lighting In-House Product Design Team

Manufacturer: Birchwood Lighting

Product Description: The new CLO designation, available across Birchwood Lighting's complete line of LED luminaires, allows drive conditions to be factory set for specific luminaire wattage or lumen performance. A CLO calculator on the [web site](#) provides the necessary CLO specification code by either choosing consumed wattage or delivered light output. Birchwood Lighting incorporates the latest programmable LED driver technology to deliver this long needed capability to lighting design professionals.

Benefits: Customers now have the capability to easily "tune" lumen output or luminaire wattage consumption to meet the rigorous energy conservation demanded by LEED and Title 24 as well as utilize luminaire performance flexibility as part of the creative process.

Ordering Information: Information and pricing is available from Birchwood Lighting at 1302 E. Hunter Avenue, Santa Ana, CA 92705.
