Design: Birchwood Lighting In-House Product Design Team

Manufacturer: Birchwood Lighting

Product Applications: JAKE is a U.L. dry-listed recessed luminaire series suitable for interior applications. High-reflectance optical tray, extruded acrylic lensing or semi-specular parabolic louvers deliver direct light distribution. Recommended for: Offices, Corridors, Retail or Interior Commercial applications.

Product Description: JAKE has been designed to deliver efficient recessed linear illumination from within a minimal lens and housing aperture fixture profile. Extruded anodized aluminum housings combined with high-impact acrylic lenses provide a robust, yet lighter-weight fixture for recessed installations. OSRAM Lumilux® T5HE or T5HO seamless fluorescent lamps, standard linear T5, T5HO, T8 fluorescent lamps or OSRAM LED Light Engine Systems®. Integral electronic ballast, drivers and power supply components are accessible through the lens opening and ballast tray from below the ceiling.

Construction and Finishes: Heavy-gauge extruded anodized aluminum housing, formed-aluminum ballast tray, high-impact extruded acrylic lens with either Frosted White or Frosted Clear transmittance. Trim (TR) style available as Satin Anodized Aluminum finish or Matte White power-coat painted finish.
