NEW PRODUCT INTRODUCTION: VANESSA WET LOCATION LUMINAIRE FROM BIRCHWOOD LIGHTING

New Product Introduction: VANESSA is a high-end architectural wet location luminaire designed to complement wet exterior or interior installations. Weather-sealing prevents water and moisture from entering the lens, power entry points and end-caps.

Design: Birchwood Lighting In-House Product Design Team

Manufacturer: Birchwood Lighting

Product Applications: VANESSA is a U.L. listed wet location linear luminaire suitable for general wet exterior lighting or wet interior installations. Fixture can be aircraft cable suspended, wall or ceiling mounted. Ideal for applications such as: retail, hospitality, institutional or commercial offices applications.

Product Description: VANESSA combines high-end architectural styling with precision engineering to create a strong, elegant wet location luminaire designed to complement wet exterior or interior installations.

Weather-sealing prevents water and moisture from entering the lens, power entry points and end-caps. Available in LED or fluorescent light sources. Constructed of heavy gauge extruded aluminum within a 4" profile, precision machined smooth end-caps and extruded acrylic lenses, VANESSA is built to last while withstanding elements associated with wet-location applications.

Construction and Finishes: Heavy gauge square extruded aluminum housing. Precision-machined aluminum end-caps. Extruded acrylic lenses. Concealed weather-seal gaskets at end caps, lens and power entry on all stand-alone or continuous run fixtures. Silver, Matte White, or Flat Black. Other powder coat finishes available.

Ordering Information: Information and pricing for ERIKA luminaires is available from Birchwood Lighting at 1302 E. Hunter Avenue, Santa Ana, CA 92705.
