ERIKA 325 Flush Lens

ERI-325S-TRI

ERI-325S-RLW

ERI-325S-FW

ERI-125R

Offering show-stopping elegance within a dynamic geometric shape and profile, ERIKA creates a sensational lasting impression in any interior application.

Horizontally cable-suspended or surface mounted, ERIKA can be specified in either square or rectangular shapes constructed of 1.25", 2.25" or 3.25" mitered extruded aluminum. Extruded acrylic lenses deliver Direct (Flush lens), Reveal (3/8" Drop lens) or Diffused (Tri-Side lens) illumination, while integral dimming and battery pack options are also available for added lighting versatility.

## Construction:

- Extruded aluminum housing for maximized durability & strength
- Extruded lenses specifically engineered to maximize the performance and transmission easy lens removal and replacement

## Performance Optics:

- Direct & direct/indirect capabilities
- 2700K-4000K 80 & 90CRI

## Electrical:

- Custom User Specified Lumen & wattage output - available (CLO)
- 1% Dimming is available with a variety of control options

## PROFILE SIZES (Round or Square)
